<p>MATHS</p>	<p>Choose a bird which migrates from Australia to India. Find the distance it covers, Time it takes to travel this distance as well as its speed.</p> <p>Now, Imagine if the same distance is to be covered by you via commercial flight, how much cost it will incur? Also calculate the time it will take to cover this distance. (Hint: Gather data about commercial flight boeing 373, its airfare, cost of fuel etc) Also, sketch the picture of the bird chosen</p>	<p>Choose a bird which migrates from Australia to India. Find the distance it covers, Time it takes to travel this distance as well as its speed.</p> <p>Now, Imagine if the same distance is to be covered by you via ship, how much cost it will incur? Also calculate the time it will take to cover this distance. (Hint: Gather data about fare, cost of fuel etc) Also, sketch the picture of the bird chosen</p>	<p>Choose a bird which migrates from Tibetan plateau to India. Find the distance it covers, Time it takes to travel this distance as well as its speed. Now, Imagine if the same distance is to be covered by you via railways, how much cost it will incur? Also calculate the time it will take to cover this distance. (Hint: Gather data about fare, cost of fuel etc) Also, sketch the picture of the bird chosen</p>
<p>SCIENCE</p>	<p>Birds' Flight: A Wonderful Sight Birds have a remarkable homing instinct, allowing them to return to the same area year after year, even when their migration takes them halfway around the world. Prepare a poster on A3 Sheet which depicts the characteristics possessed by a migratory bird.</p>	<p>Wings and Flight Flight of a bird is the feature that probably captures the human imagination more than anything else. Albatrosses glide and soar with long narrow wings stretched out, sometimes staying aloft for hours without a single wing beat. Hummingbirds, on the other hand, can't rest their wings for even a second in flight. Prepare a poster on A3 sheet which depicts the relation between the wings and flight of any two birds</p>	<p>Why do birds of a feather flock together? Many bird species form flocks for different reasons. Flocks may be of different sizes, occur in different seasons. Flocks are so prevalent in some bird species that these groups of birds have special names, such as a raft of ducks, a charm of finches etc. Prepare a poster on A3 sheet which depicts the benefits of moving in flocks. (keeping any one type of flock in mind)</p>
<p>S ST</p>	<p>Indian sub-continent plays host to a number of migratory birds in summers as well as winters. Greater Flamingo-A migratory bird Prepare a wall paper</p> <ul style="list-style-type: none"> From where Greater Flamingo has migrated in India, show its migratory route on world's physical map. Reason of migration 	<p>Indian sub-continent plays host to a number of migratory birds in summers as well as winters. Common Teal-A migratory bird Prepare a wall paper</p> <ul style="list-style-type: none"> From where common teal has migrated in India, show its migratory route on world's physical map. 	<p>Indian sub-continent plays host to a number of migratory birds in summers as well as winters. Black Crowned night Heron-A migratory bird Prepare a wall paper</p> <ul style="list-style-type: none"> From where Black crowned night heron has migrated in India, show its migratory route on world's physical map. Reason of migration

	<ul style="list-style-type: none"> • Timing of Migration • Duration of migration • Its adaptability in India, which part of India they stay • Make a comparative table to show the climatic conditions of the area from which they have migrated to India 	<ul style="list-style-type: none"> • Reason of migration • Timing of Migration • Duration of migration • Its adaptability in India, which part of India they stay • Make a comparative table to show the climatic conditions of the area from which they have migrated to India 	<ul style="list-style-type: none"> • Timing of Migration • Duration of migration • Its adaptability in India, which part of India they stay • Make a comparative table to show the climatic conditions of the area from which they have migrated to India
